DESIGN STUDIO

HOLA

Ciao!

Our architectural studio fuses design and the avant-garde to generate functional, attractive, and innovative environments, promoting new ideas and creativity applied to projects of high added value. We want you to enjoy the environment that surrounds you from the creation process, so we have at your disposal a team of professionals in multiple areas able to meet any requirement during the development of your project, as well as the logistics and infrastructure necessary to carry it out. Welcome to the world of the possible!

We are firmly convinced that great things happen when we do them together, we have at your disposal a range of services that seek to meet your requirements in a personalized way. Meet them below.

SPAZIO

About us

We are a multidisciplinary team in the architectural sector, specialists in the complete development of integral projects, able to offer a selection and management of all processes related to the construction, acquisition, and transport of national and imported materials, with +200 brands of European design with the highest quality requirements to generate functional and lasting environments, we provide you with logistical assistance to successfully direct and guide the arrival of each of the products in the construction process, to achieve a unique and high added value "turnkey".

ABOUT

We consider residential architecture a fine art. We design living spaces; cozy, elegant, modern, rustic, or any other descriptor. Establishing a tone that defines the style, at the same time, is functional and communicates the requirements and feelings that we intend to convey according to the preferences of our customers.

Casa PAF

Residential Project
Interior Design / Execution
Location: Maracaibo / VZLA

NW

About the project

Casa PAF represented to us a unique and special project where we had the opportunity to execute its renovation process to convert it into a home with a solid functional proposal and an ambiguous, modern, industrial aesthetic with a dual personality.

We cover all the phases necessary to achieve a turnkey project with a special factor. We work hand in hand with our partner factories for the supply of Italian furniture and conceive with our project team and manage its total construction.

About

Are you dreaming of developing a commercial space that speaks the language of your brand and at the same time is a functional experience? We teach you a whole world of possibilities.

We focus on creating unique experiences by studying the language and identity of your brand or product. For us, the identity of each space is important, so we get involved from the main idea to the materialization of the final execution.

We cover from the conceptualization of brand identity to the branding in general of your commercial project by the hand of our brand lab:

Estación H

Commercial project
Interior Design / Branding / Finishes
Location: Maracaibo / VZLA

NW

About the project

Based on a train station that is constantly traveling through different continents through its gastronomic proposal reflecting in stations that connect with each other.

The design approach was based on generating a sense of traffic, integrating materials in a sophisticated way to create the feeling of being in an old train station; taken to a modern scale with LED lighting towards the present future.

We develop the branding by raising an ambiguity of the classical with the contemporary and of the functional with the warm.

R-Garden

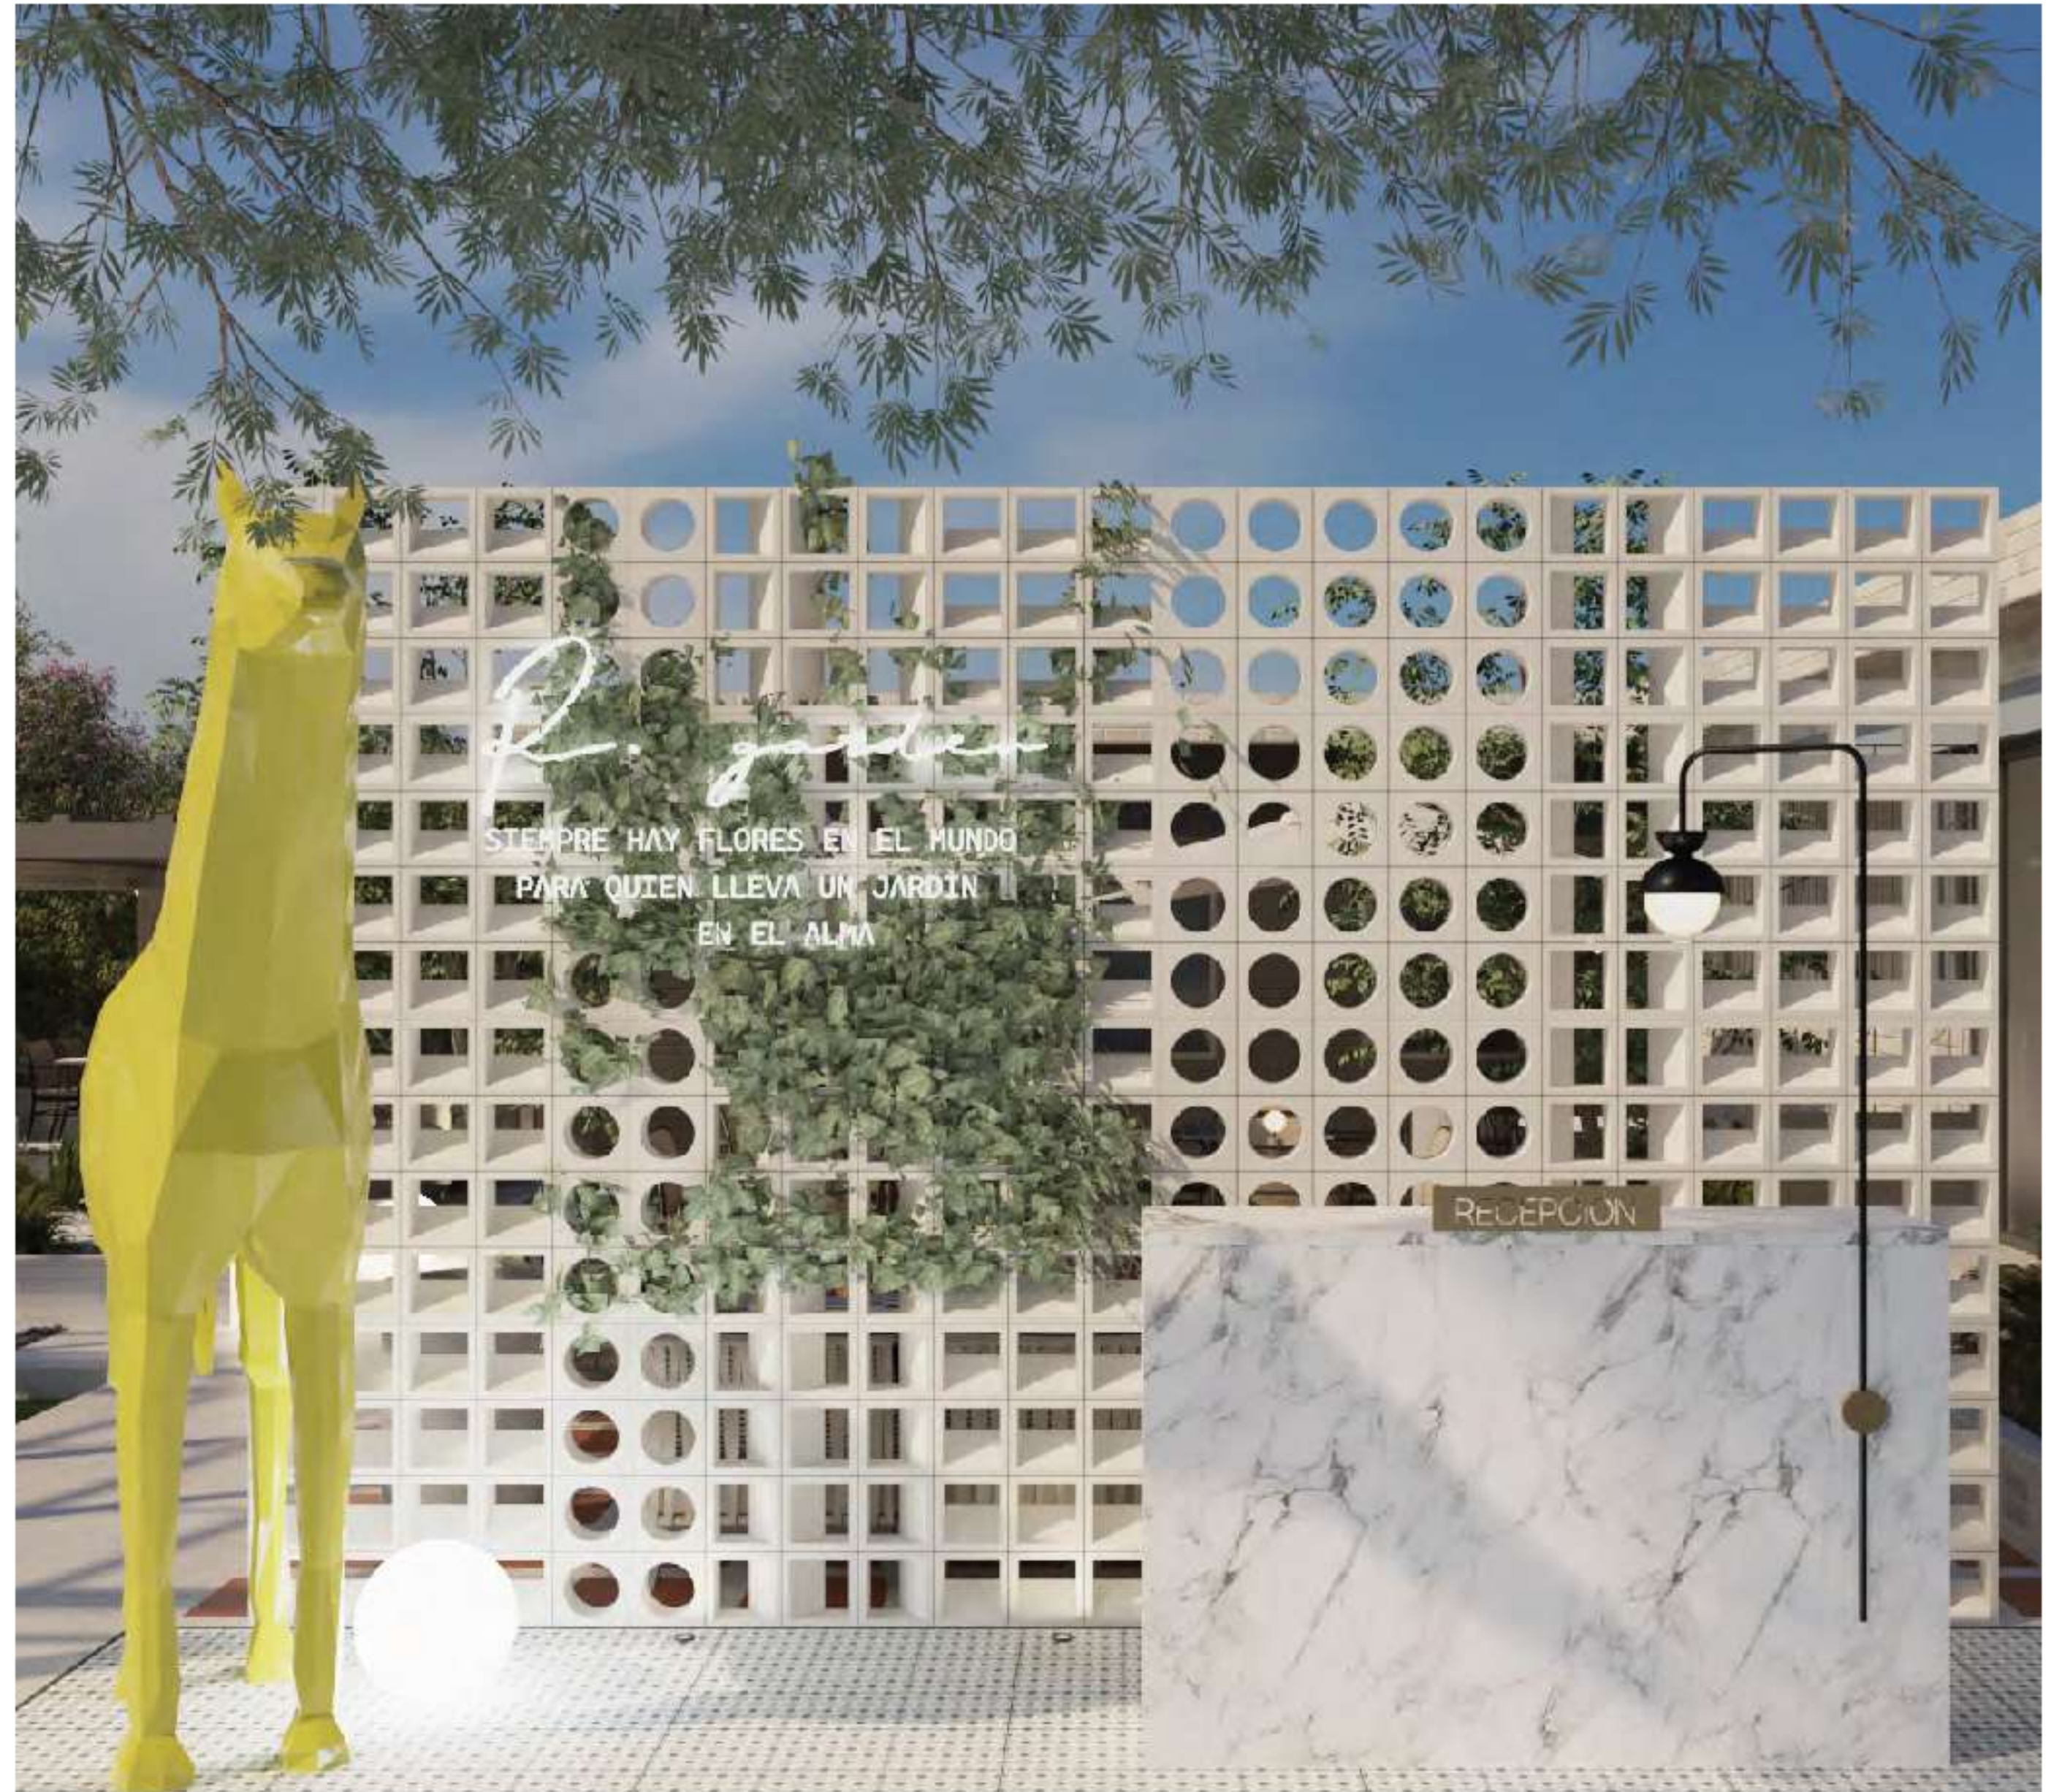

Commercial project
Interior Design
Location: Maracaibo / VZLA

NW

About the Project

Based on generating an environment of social interest and unique character we create a garden with different areas for the guests. During the tour we can enjoy different experiences, a proposal conceived with the aim of making social events maintaining the essence of the garden and offering in the path of their spaces a new one, choose between a closed area that provides a more exclusive feeling.

We select rustic materials for the floors and paint the existing slats to elevate the realized concept. The palette of pastel colors is complemented with some details in black to strengthen and pronounce some furniture: as well as the structure of the greenhouse which is a fundamental part of the project.

Žena

Commercial project
Interior Design / Execution / Branding
Location: Maracaibo / VZLA

NW

About the Project

Starting from a natural concept, the store is developed through irregular forms with the main intention of maintaining an unconventional essence and providing users with a new experience in the city.

In order to create a visual contrast between solid complements and natural elements, we propose to represent through spaces a segment that is based on the origin of a work of art.

The origin of the source is its essence while art is the representation that arises through external participation. It represents the essence of design that connects with women of the present and the new future.

Creation

Spazio Design

Stop imagining... To start living

The transcription of success through experiences and squares of emotions that welcome you to the world of the possible. A world where design is recognized for its form, for its fusion with the environment, for understanding that spaces (as in music), need silences and harmonies. From elements that play in favor of emotions, those that will mark the good moments of your life... Where you want to be, and where we'll help you make it possible. It's a commitment to cutting-edge, innovative, functional design, and to those who think outside the box, the daring, and the trend-setters that will be enjoyed for generations.

From SPAZIO DESIGN, I want to open the doors to all who think big, because it is time to make the dreams of many come true, showing that the quality of projects can be measured by the value of design, but even more by the functionality of spaces. We know great things happen when we do them together.
